24. Should men to whom advances on account of leave pay have been made under paragraph 6 (ii) fail to rejoin, the advances made to them will be charged off against the state in the accounts of the unit concerned.

25. Except as herein provided, no recovery will be made from the estate of a deceased officer or soldier, in respect of any advance of pay drawn by him; but the whole or any portion of the pay (or gratuity) payable to an officer, due to him at the time of his death may be withheld in liquidation of any unadjusted advance of pay.

26 Advances of pay issued in England to officers of British units prior to their departure for India may be refunded by such officers if they so desire, through their agents in England. Officers availing themselves of this concession should inform the C M A concerned of the names of the Home agents by whom refunds will be made to the India Office and the C M A will notify the Accountant General India Office accordingly.

27. The above rules apply only to adjustments effected in India. In the case of officers who have proceeded home on furlough or leave, adjustments are effected by the India Office on terms differing from those above laid down, in the case of leave pay no further issue will be made until the advance received in India has been recovered in full.

ADVANCES FOR MOTOR CARS AND MOTOR CYCLES

28 The amounts admissible as advances for the purchase of motor cars and motor cycles and the authorities competent to sanction such advances are given in paragraph 14. These advances are granted subject to the rules in the following paragraphs and on the condition that the sanctioning authority considers it is in the interests of the public service that the individual should use a motor car or motor cycle in the discharge of his duties.

29 An application for an advance (prepared in duplicate) must be made through the officer commanding the station to the G O C the District for disposal. On an advance being sanctioned a blank form of mortgage bond [vide appendix I (b) to A I I No 12 of 1920] with a copy of the sanction will be forwarded by District Headquarters for execution in the presence of the officer commanding the station and another officer after which it will be registered in the nearest registry office and forwarded with the sanction together with a bill for the authorised amount, to the audit officer for necessary action and transmission to the C M A for safe custody. On the advance being finally liquidated the bond together with the deed of reconveyance duly signed by the C M A on behalf of the S of S will be returned to the mortgager.

NOTE.—The G O C District will be responsible that the mortgage deed is properly executed. The cost of legal expenses including registration in connection with the mortgage bond and deed of reconveyance is recoverable from the original mortgagor. He is however exempt from the payment of stamp duty chargeable on the mortgage bond and reconveyance deed. The registration of reconveyance deed is not compulsory.

30 An individual on leave in England for whom an advance has been approved by the sanctioning authority in paragraph 14 I or II will be allowed to take it from the S of S six weeks before his departure for India.

NOTE.—Individuals drawing the advance will be required to execute a personal security bond in the form prescribed by the S of S for India [vide appendix I (c) to A I I No 12 of 1920].

31 Except when an individual proceeds on long leave or retires from the service or is transferred to an appointment, the duties of which do not render the possession of a motor car or motor cycle necessary, the previous approval of the sanctioning authority in paragraph 14 I or II is necessary to the sale by him of a car or motor cycle which has been purchased with the aid of an advance which has not been fully repaid. If an individual wishes to transfer

such a car or motor cycle to another individual who performs duties of a kind that render the possession of a motor car or motor cycle necessary, the sanctioning authority in paragraph 14 I or II may permit the transfer of the liability attaching to the car or cycle to the latter individual provided that he records a declaration that he is aware that the car or cycle transferred to him remains subject to the mortgage bond and that he is bound by its terms and provisions.

32. In all cases in which a car or motor cycle is sold before the advance received for its purchase from government has been fully repaid, the sale-proceeds must be applied, so far as may be necessary, towards the repayment of such outstanding balance. Provided that when the car or motor cycle is sold only in order that another car or motor cycle may be purchased, the sanctioning authority in paragraph 14 I or II may permit an individual to apply the sale-proceeds towards such purchase subject to the following conditions :—

- (a) the advance outstanding shall not be permitted to exceed the cost of the new car ;
- (b) the advance outstanding shall continue to be repaid at the rate previously fixed ; and
- (c) the new car or motor cycle shall be insured and mortgaged to government as required by these rules.

33. Individuals may be allowed advances to purchase more than one car or motor cycle at a time if it can be shown that such action is clearly desirable in the public interest and provided that the total amount outstanding at any one time by way of such advances against a particular individual does not exceed the limit within which advances may be given.

34. In the case of individuals drawing advances in India, purchase should be made within six months from the date of the order sanctioning the advance, insurance being effected within one month of the date of purchase; in the case, however, of individuals drawing advances in England, insurance should be effected within one month of the date on which the officer arrives in India, unless an insurance policy is already in existence. Contravention of these orders will render the individual liable to refund the whole of the amount advanced, unless good reason is shown to the contrary. The insurance cover note, not the insurance policy, should be sent by the officer direct to the C. M. A. concerned.

35. Recovery of advances will be effected from the individuals' salary monthly at the rates in paragraph 51.

ADVANCES FOR HOUSES IN MILITARY CANTONMENTS.

36. An application for an advance [prepared in duplicate and accompanied by (a) a plan of the position of the proposed building and (b) a certificate that the sum is to be expended on building only, and in the case of an advance to purchase, by a certificate that the applicant intends to reside in the house] must be made through the officer commanding the station to the District Commander for disposal. On an advance being sanctioned, a blank form of mortgage bond with a copy of the sanction will be forwarded by the District

RULES REGULATING THE GRANT OF LEAVE ALLOWANCES.

82. The leave allowances payable to an individual on leave in India or for the period of leave spent in India when proceeding on leave out of India are admissible from the date on which he ceases to receive the pay or staff pay, etc., of his appointment on handing over or relinquishing his duties. They cease when he assumes his duties on return from leave, reckoned as

and proceeds on privilege leave on termination of such duty or acting appointment.

- (b) an officer has relinquished his old and joined his new appointment from the date of the order transferring him if the staff pay of the new appointment is available, otherwise from the date on which it does become available—if he is transferred from one corps or appointment to another when he is on, or at once obtains, privilege leave.

NOTE.—Clause (b) applies only to cases where both the appointments from and to which an individual is transferred are under the Government of India.

91. An officer who is restricted to 8 months' leave during his tenure of office and who vacates his appointment while on leave (see A. R. I., Vol. II) will cease to draw any staff pay from the date from which he is required to vacate. No adjustment of leave pay drawn up to the date of vacation will be made.

92. The grant of full pay under clause (vi) of para. 63, 64 or 65 above is restricted to officers whose disability is due to special conditions arising out of active service in the field and not to causes within their own control. The grant of full pay under clause (vii) of para. 63, 64 or 65 is restricted to officers provided they are placed on the sick list within one year from the date of being struck off duty in the field and the sickness is directly attributable to special conditions arising out of active service in the field.

93. The rates of leave pay in clauses (vi) and (vii) of para. 63 and clauses (vi) to (viii) of paras. 64 and 65 cannot be drawn after two years from the date on which an officer last did duty under active service conditions in the field service area in which the disability was contracted. Within this limit the concession may be enjoyed in one or more periods of sick leave.

94. The leave allowances authorised in para. 64 (vi)—(viii) and para. 65 (vi)—(viii) are admissible only in cases where the disability of an officer is due to military service within a recognised sphere of active operations and not to an officer invalided from a field service area from any cause which was not within his control.

95. The allowances in para. 71 (v) (a) and (b) to military assistant surgeons of the Indian Medical Department are only admissible during the course of study and for the period of any examination held at the end of any course, and up to 14 days for any period of vacation. The period for which an assistant surgeon interrupts his course for his own convenience is not counted as vacation. The allowances are granted on production of certificates of study or special study on the proper form, showing that a definite course of study at a recognised institution has been pursued. The allowances are not admissible to assistant surgeons while studying for an arts examination. They are only admissible while an assistant surgeon is undertaking study which is of a purely medical nature. Should an assistant surgeon retire from, or resign, the service without returning to duty or within one year of his return to duty, after a period of study leave, the allowances will be forfeited.

96. Departmental officers and warrant officers granted furlough or leave in India pending retirement or transfer to pension, who may take up private employment during that period, are entitled to the leave allowances authorised in para. 69 in addition to any emoluments received for such employment.

97. Regimental and non departmental warrant officers, N C Os and soldiers who are granted furlough or leave in India for the purpose of seeking civil employment prior to discharge are entitled to the leave allowances authorised in paras 70 and 72 for two months in addition to any emoluments they may receive for such employment (whether under government or with a private firm or individual)

COMPENSATION.

FOR LOSS OF STAFF, COMMAND OR ADDITIONAL REGIMENTAL PAY.

98. Compensation for loss of staff command or additional regimental pay [but not other allowances, see para 100(c)] is admissible in the following circumstances to a staff or regimental officer holding a permanent appointment or command —

Note—In the case of British troops compensation is admissible to the officer actually in command of a unit whether permanently or temporarily

- (a) When detached from his appointment or corps by order on temporary or special duty (but see A R I, Volume II). If he is not remunerated for the special duty and an officiating appointment has been made in his place, the detached officer draws half staff, half command or half additional regimental pay and compensation for the moiety forfeited, if he is remunerated for the special duty, but the remuneration is less than the staff, command or additional regimental pay he was in receipt of, compensation for the difference is admissible (Not applicable to field service, or to attaches at Army, Command and District Head Quarters, or to students at the Indian Staff College)
- (b) If placed on duty during general leave of absence or privilege leave—for the actual period of duty
- (c) On the reduction of an Indian regiment—for the amount of his command or additional regimental pay, or such portion of it as he would have been entitled to had he continued to serve with the corps during the ensuing six months, or for the difference between that amount and any less amount of staff, command or additional regimental pay, he may receive within that period

99. Compensation, when authorised, is only admissible for loss of the permanent remuneration an officer was in receipt of at the time he was detached on special duty, and is continued only so long as he would have received such remuneration had he been present and in the performance of his duties

100. Compensation is inadmissible to an officer for loss of salary —

- (b) Due to his removal from one portion of his regiment to another or from one regiment to another

- (c) Due to forfeiture of stationery, office or contract allowances.
- (d) Due to relinquishing medical charge of district or brigade staff.
- (e) Due to his staff appointment or command having been abolished on reduction, except in the case of Indian regiments [see para. 98(c) above].

For Loss of Equipment, Clothing, Mess and Band Property, etc.

101. Compensation is admissible to an individual including a reservist, or a follower (see paras. 102—106 below) for the loss, damage, or destruction, in the following circumstances, of any articles of equipment, clothing (including personal clothing) or necessities, which he may be required to replace at his own expense for military duty according to the rules of the service, provided that the loss, damage or destruction is not due in any way to negligence on the part of the claimant:—

- (a) When the loss, damage, or destruction is caused by the action of an enemy or insurgents.
- (b) When the loss, damage, or destruction is due to accidents which occurred when the claimant was travelling by road, water, rail or aeroplane on duty.
- (c) When the articles are lost, damaged, or destroyed, in a Government building or Government tent in use under proper authority and for recognised military purposes.
- (d) When the article is destroyed under the orders of competent authority.

Compensation will be admitted on the order of the competent financial authority (see A.R.I., Volume III) or the G. O. C. in the field.

NOTE I.—Cases of loss or damage arising out of the special conditions on the frontier which fall under the spirit but not the letter of clause (a) should be specially referred for the orders of the Government of India.

NOTE II.—Clause (c) does not apply to losses caused by fire in the case of officers, departmental officers and warrant officers, or others who pay rent for public quarters occupied by them. Compensation is inadmissible for losses due to theft, unless the articles stolen were at the time in the charge and custody of Government under proper authority. Compensation is also inadmissible to officers who have proceeded on field service for losses of private property which have occurred while the property was stored in regimental or other charge or during transit to another station.

NOTE III.—Compensation is not admissible for articles damaged unless they have been so greatly damaged as to be unfit for further use. When an article is repairable, no compensation is admissible in respect of the cost of repair. Under no circumstances is compensation admissible in respect of "wear and tear" of kit in the course of active service, as opposed to destruction or irremediable damage in active operations.

NOTE IV.—The grant of compensation for Quartermaster's stores destroyed by fire or shipwreck is ordinarily inadmissible.

NOTE V.—The term "followers" means followers who are directly paid by the State. Only those followers are eligible to receive compensation for the loss of the prescribed articles in the circumstances set forth above, who either are supplied with them by the State, or are themselves required to maintain a kit towards the upkeep of which they receive an allowance from Government.

Exception.—Compensation is admissible to followers, public, regimental or private, for articles compulsorily destroyed under competent authority to prevent the spread of contagious or infectious disease.

NOTE VI—Compensation is admissible to his legal representative if the individual dies before receiving it and satisfactory proof is forthcoming that expense has been incurred in replacing an article lost, damaged or destroyed.

104. Compensation to British soldiers will be assessed with reference to the actual value of the articles at the time of loss, damage or destruction. In the case, however, of personal clothing, the assessment will be made with reference to the unexpired value (see A.R.I., Vol. XI).

For example :—

Frock serge.—Period of wear, 18 months. Full value Rs. 5. Lost after 6 months' use. Compensation payable = $\frac{2}{3}$ rds of Rs. 5 = Rs. 3-5-4.

No claim to compensation is admissible in respect of articles which have lasted the full period of wear.

In the case of necessaries full value will be granted.

When compensation is claimed for the entire kit or any particular article or articles, a certified statement signed by the O. C. the unit concerned showing the original cost of the articles, the period in use and the period which the articles usually last should be laid before the investigating authority for submission to the competent financial authority.

105. The rules in para. 104 as regards personal clothing and necessaries, will also apply to Indian troops and followers in receipt of, or eligible for, cash clothing allowances.

106. A claim for compensation not exceeding Rs. 1,000 in value will be investigated by the O. C. : if it exceeds that sum, it will be investigated by a station board. In either case, an opinion on the actual amount of loss sustained, the circumstances in which it occurred, and the validity of the claim as governed by the regulations, will be recorded on I.A.F.A. 498 to be attached to the proceedings ; the latter should contain a definite recommendation made-

to the competent financial authority regarding the amount of compensation to be granted, and whether the loss should be made good in money or in kind.

107. Compensation cannot be claimed for damage to, or loss of, private baggage, nor of the military baggage of "not entitled" passengers as the State accepts no responsibility therefor. The insurance of all such baggage therefore rests solely with the passenger.

108. Indemnification is not granted on account of losses sustained by soldiers' families, but under extraordinary circumstances, such as wreck on the voyage to India, claims for gratuities to enable them to reft will receive consideration by the Government of India.

109. Compensation cannot be claimed for the loss of mess property by fire or shipwreck, against which it must be insured by the corps, but in other cases Government will aid in re-equipping the mess to such an extent as the merits of the case may demand. (In no case will more than two thirds the value of mess plate, or one fourth the value of silver articles lost, be allowed.) Compensation for band instruments is admissible to the extent of two thirds of their original cost.

FOR LOSS OF ANIMALS

110. Compensation is allowed to any officer or soldier or follower for the loss of an animal, which by the rules of the service he is obliged to maintain at his own expense for military duty, provided the loss occurred when the animal was present for duty, and was not preventible by the claimant or by those in charge of the animal. The loss or total disablement must, further, have resulted from risk of an exceptional nature such as might be incurred during peace manoeuvres or an extended reconnaissance. This rule is inapplicable to loss or disablement caused by accident incurred in the course of ordinary squadron training, regimental parades or station duty. The peace manoeuvres or extended reconnaissance must have been carried out under the orders of the Brigade Commander or other superior authority. Compensation is also admissible when destruction is ordered by competent authority under the rules in A.R. I Vol II, or when death or destruction is the result of inoculation or other prophylactic treatment carried out by a properly qualified person. The facts will be testified to upon the prescribed form by a station board on which, if possible, a veterinary officer will sit. Compensation will only be awarded on the order of the Brigade Commander. Compensation may be paid in money or the claimant remounted by the State. Compensation is not admissible when death is the result of disease. Provided all other requisite conditions are fulfilled, compensation for the loss of chargers is admissible to the estates of deceased officers whether the chargers are replaced or not. Similarly, immediate payment of compensation whether the replacement has been effected or not, is admissible to officers who are (a) invalided out of service, (b) granted sick leave or (c) placed on duty which does not require the upkeep of a horse.

111. The compensation admissible to an officer for the loss of his charger is as follows —

If the animal was selected from the ranks or the remount department, the amount usually admissible on the return of the charger to the

ranks : otherwise the animal's price originally registered in the station or regimental records, less 7½ per cent. for each complete year the animal has been in the officer's possession up to 9 years of its age, and thereafter, less 10 per cent. for each additional complete year of possession, but in no case more than Rs. 1,150.

112. Compensation is allowed to mounted officers, non-commissioned officers and men of mounted units or of authorised mounted detachments of infantry units (who by the rules of the service are required to maintain a horse) of the Auxiliary Force, for the loss of their horses, if the loss is caused by injuries received by the animal through the performance of military duty, whether or not the injuries resulted in the immediate death or destruction of the animal (always provided the accident was not preventable by the claimant, or by those in charge of the animal).

113. Compensation is also admissible to the individuals mentioned in para-112 when destruction is ordered by competent authority under the rules in Army Regulations, India, Volume II, or when death or destruction is the result of inoculation or other prophylactic treatment carried out by a properly qualified person, the facts will be testified to upon the prescribed form by a station board on which, if possible, a veterinary officer will sit. Compensation will only be awarded on the order of the officer commanding the district.

Compensation is not admissible when death is the result of disease.

Compensation may be paid in money or the claimant remounted by the State.

114. Compensation, when granted in money to the individuals mentioned in para. 112 will be paid according to the following scale :—

The price estimated in accordance with the valuation of the animal when taken on the establishment, less $7\frac{1}{2}$ per cent. for each complete year the animal has been in the possession of a mounted officer or a member of a mounted unit or authorised mounted detachment of an infantry unit, up to 9 years of its age, and thereafter, less 10 per cent. for each additional complete year of possession, but in no case will more than one thousand rupees be granted as compensation for a horse.

115. The maximum compensation admissible to owners of camels in silladar camel corps when the animals are affected with surrah and are destroyed by order of the O. C. the station on the written opinion of a veterinary officer that the disease constitutes a public danger, is as follows :—

For camels—

124 The rules in paras 122 and 123 apply to civilian employees of the Ordnance Department except that, in the case of civilian assistant foremen and other civilian mechanics ranking as assistant foremen in that department compensation for inferior quarters will be calculated with reference to the new scale of accommodation laid down in A R I, Volume XII

125 Compensation will not be admissible to an individual who is officiating in a higher appointment on the scale appropriate to such higher appointment, nor to a permanent or *sub pro tem* incumbent for whom accommodation on the scale laid down for his appointment is available but who elects for his own convenience to retain his inferior quarters

If, however, he is in receipt of compensation in lieu of quarters or compensation for inferior quarters, previous to going on privilege leave he will continue to draw such compensation during his privilege leave whether combined with other leave or not and also during any privilege leave taken during or in continuation of deputation, provided he does not voluntarily vacate any inferior quarters allotted to him. They should, moreover, be granted only in exceptional cases, when it is impossible to provide quarters either by building, purchase or hire, and the rules as regards the provision of quarters by the M. SYCE, FORAGE AND HORSE ALLOWANCES.**Syce and forage allowances to British Officers.**

303. Officers who own chargers (including hired chargers on the scale prescribed in Appendix VI) are entitled to draw, for each authorised charger, syce allowance at the rate of Rs. 15 a month, and forage, provided the horses are passed fit as officers' chargers. Forage will be drawn in kind by all officers belonging, or attached, to units, and by those for whom arrangements can be made to draw through units. Officers who cannot draw forage in kind may draw compensation in lieu of forage, the rate being that for the standard ration at the average monthly rate for the District or Independent Brigade concerned as calculated by the C. M. A.

NOTE 1.—Horses boarded out under the rules in A. R. I., Vol. II, cannot be held as chargers for purposes of syce and forage allowance.

NOTE 2.—The above concessions are granted on the condition that officers shall maintain chargers fit for war as well as for peace purposes.

304. (a) A mounted officer proceeding on leave whose duty is performed during his absence by another officer who is already entitled to be mounted will continue to draw syce allowance and forage for his horse or horses.

(b) A mounted officer proceeding on leave, whose duty is performed during his absence by another officer who is not already entitled to be mounted, can lend his horse or horses to the officer who performs his duty during his absence in which case the latter officer will be entitled to draw syce allowance and forage for them. If, however, he does not wish to lend his horse or horses to the officer performing his duty, the latter officer can hire chargers and draw syce allowance and forage for each charger taken on hire; in this case, syce allowance and forage will not be admissible for the officer who proceeds on leave.

NOTE 1.—In cases where an officer going on leave is willing to lend his horse or horses to the officer performing his duty, who, though not already entitled to be mounted, does not wish to accept them, the latter will not be supplied with other horses nor can he draw syce allowance and forage, as this will be drawn for the period of leave for the horse or horses of the absentee, provided the horses are actually maintained by him.

NOTE 2.—In accordance with this rule, syce allowance and forage can be drawn only for the number of chargers authorised for units.

305. Officers, other than regimental officers serving with units who are entitled to be mounted, but whose duties are better performed by car or motor cycle may, under the orders of the G. O. C. the District as published in District Orders, draw the forage and syce allowance authorised for the full upkeep of one charger or such less portion as the G. O. C. may decide and devote the same towards the maintenance of the car or motor cycle used in the performance of their duty, provided that no special motor car or motor cycle allowance shall be drawn in addition. In cases where a motor car or motor cycle is provided by Government, syce and forage allowance in lieu is inadmissible.

306. When an officer's charger, which is entitled to free forage, is admitted into a veterinary hospital, the officer will make his own arrangements for providing forage for it. The syce allowance will continue to be drawn by the officer.

NOTE 4.—In the case of the wife of a British soldier who is eligible for marriage allowance and is undergoing training as a sick nurse or mid wife in a civil hospital, see note to para. 295

Eligibility for the Grant.

314 Soldiers in respect of whom marriage allowance may be drawn are as follows —

(a) Those on the "married quarters" roll "A soldier, whatever his rank, will not be eligible to be placed on the married quarters" roll until he attains the age of 26 years. Soldiers who were on the married establishment on 4th October 1920, may be placed on the married quarters roll without regard to their age
(b) Serving soldiers who are placed on the "marriage allowance roll" Such a soldier must have attained the age of 26 years
In all cases under (a) and (b), the determining age for purposes of marriage allowance will be the *actual* age of the soldier, as confirmed by a certificate of birth

315 Marriage allowance is normally issuable for legal wives and legitimate children or step children. It is also issuable for any child born to the soldier and his wife before their marriage. It is issuable in no other cases. The age up to which the allowance is issuable in respect of children will be prescribed from time to time. At present the age will be taken as 14 years. If the child is attending school, the allowance may be continued up to the end of the school term in which the child attains the age of 14

316 The allowance will be normally payable to the soldier. If, however, he is separated from his wife owing to the exigencies of the service for a period

which is expected to exceed 2 months, the allowance will be paid to the wife. In cases where the absence was expected to be less than 2 months, but is extended beyond that period, payment will be made to the wife if it is anticipated that the separation will continue for a further month. Where there are motherless children, or where marriage allowance is not issuable for the wife, the children's allowance is issuable to the soldier or to the guardians of the children for the benefit of the children.

Allotment.

317. When the allowance is payable to the wife or to the guardian of the children, a compulsory allotment shall be deducted from the soldier's pay at the following daily rates and issued in augmentation of the marriage allowance :—

<i>Rank.</i>	<i>Rate per day</i>
Under Sergeant	2s.
Sergeant and non-commissioned officers of higher rank	3s.
Warrant officers, Classes I and II	4s.

The allotment will be the same whether the marriage allowance is drawn in respect of a wife, wife and children, or motherless child or children, except that no specific allotment will be made in the case of motherless children where the marriage allowance is issued to the soldier and allocated by him (see paragraph 334).

When a soldier lives with his family, no allotment will be taken from his pay.

Where a soldier is in debt, any voluntary allotment which is in issue, will cease or be reduced by such an amount as will enable the debt to be cleared within 3 months. If no voluntary allotment is in issue, or its cessation will not enable the debt to be cleared within 3 months, compulsory allotment, if in issue, will also be reduced by such an amount as will enable the debt to be cleared within that period.

Casualties affecting the soldier.

318. When the soldier's pay ceases, any allotment, either compulsory or voluntary, in augmentation of marriage allowance will also cease, except that for periods of less than 8 days during which the soldier forfeits pay, allotment will continue and will be charged against the soldier's account.

319. When a soldier is separated from his family by reason of admission to hospital, marriage allowance will continue to be issued.

No change in procedure will be made in the case of separation due to this cause when payment is made to the wife or when separation does not last for more than 14 days. If the separation exceeds 14 days, payment of allowance and allotment will be made to the wife or, in the case of children, to their guardian.

320. On the death of a soldier, marriage allowance and the equivalent of the compulsory allotment which was associated with it (or would have been if the soldier had been separated from his family) will be continued until the occurrence of the first opportunity of sending the family home after the death.

of the soldier, provided that in no case will the family receive less than one month's allowances, that marriage allowance and allotment are not issued to the soldier's widow or children concurrently with pension in respect of the same soldier and that marriage allowance in respect of the deceased soldier is not issuable on the re marriage of a soldier's widow. No allowance will be issued for a child born after the date of the soldier's death.

Should the widow elect to remain in India, the issue will cease after one month from the date of the soldier's death, or from the date of notification according to whether the soldier died while living with his family or not.

Any voluntary allotment in excess of the rate laid down in paragraph 317 will cease on the death of the soldier.

Compulsory allotment issued after the date of death under this paragraph will not be charged against the soldier's account.

Furlough and leave.

321. Marriage allowance is issuable during privilege leave, ordinary furlough and sick furlough. The allotment will be issued during privilege leave, ordinary furlough and sick furlough in those cases where it was issuable immediately before the leave or furlough was granted.

NOTE.—Those in receipt of consolidated or special rates of pay and who are not entitled to marriage allowance while in receipt of such pay will be eligible for the allowance while on furlough on sterling rates of furlough pay.

Discharge and transfer to reserve.

322. Marriage allowance and the allotment, if any, will cease from the date on which the casualty occurs.

323. Where soldiers are sentenced to terms of penal servitude, detention or imprisonment, marriage allowance will be issued or withheld as follows—

(i) Soldiers sentenced by court martial to penal servitude or imprisonment, where discharge from the service is part of the sentence of the court, or is subsequently approved. Marriage allowance will cease from the date on which the discharge is carried out.

(ii) Soldiers tried by the civil power and sentenced to penal servitude or imprisonment. Marriage allowance will cease from the date on which the discharge from the Army is carried out.

When a soldier is sentenced to detention or imprisonment, marriage allowance will be issued to the wife, where admissible, if the period of sentence is in excess of 14 days.

Arrest (military and civil).

324. Marriage allowance may continue during periods of arrest or confinement awaiting trial. If pay is forfeited for more than 7 days, allotment will cease.

Absence without leave.

325. When a soldier is absent without leave for 8 days, the issue of marriage allowance will cease forthwith. If the soldier rejoins, marriage allowance will be resumed from the date on which he joins, subject to recovery of any over-issue of allowance and allotment in respect of the period of absence. If the soldier is acquitted of desertion or absence without leave, marriage allowance and allotment will be resumed from the date from which they ceased.

Promotion or reduction.

326. If a soldier is promoted, any increased allotment will take effect from the date from which the higher rate of pay is drawn. In the case of a soldier who acts in a vacancy caused by promotion, the allotment applicable to the higher rank for which he draws pay, will be issuable for the whole period during which he draws the higher rate of pay.

On promotion to commissioned rank, marriage allowance and allotment, if any, will cease and any over-issue will be recovered.

327. If the soldier is reduced, any reduction in the allotment will take effect from the date of reduction.

Date on which marriage allowance commences.

General Rules.

397. The Government of India and the Secretary of State in Council reserve to themselves the right of withholding and withdrawing, wholly or in part, the pension to which any officer has become entitled, if, after becoming so entitled, he be convicted of serious crime or be guilty of grave misconduct or if it be discovered that before becoming so entitled, he was so convicted or was guilty of such misconduct. The decision of the Secretary of State in Council on any question of withholding or withdrawing the whole or any part of a pension under this paragraph shall be final and conclusive.

NOTE.—This rule applies to all officers of the Indian Army admitted to pension on or after the 22nd February 1904.

398. In the event of a retired officer becoming a naturalised citizen of a foreign state, the Secretary of State will decide, after consideration of the circumstances of the case, whether the officer's pension should be discontinued.

399. An officer who, after retiring on pension other than an invalid pension, obtains employment in a public capacity, is entitled to draw the pension in addition to the salary of the office to which he is appointed (but see C. S. R.).

400. If a pensioner whose pension has been commuted accepts public employment involving the withholding of pension (see C. S. R.) a deduction will be made from his salary equal to the amount which would have been abated

from the pension had it not been commuted, and in the event of his becoming entitled to a pension in respect of such employment, the amount of such pension must not exceed the amount which he might have received had his pension not been so commuted.

401. Officers who entered the Indian Army after the 9th January 1892 are liable to be re-called to service in the Indian Military Forces, after retirement on pension, under the provisions of clause 99 of India Army Circulars, 1893. The pay, pension and gratuity on re-employment will be as follows —

(a) pay of appointment *plus* pension

(b) gratuity of 31 days' pay for each year or part of a year of re-employed service, subject to the exceptions mentioned in para 165, but such service will not be pensionable

NOTE—Any re-employed officer entitled to the terms of clause 99 of India Army Circulars, 1893, may elect them in lieu of the above within a month of re-employment, the gratuity in such cases will be regulated by para. 165

402. Officers may commute a portion not exceeding one third of their pensions either on retirement or at any subsequent time under the rules in appendix IV (a)

403. Full power is reserved to the Secretary of State for India to temporarily suspend or limit retirement whenever it may appear to him necessary to do so in the interest of the public service

404. Officers who join the Indian Army on or after the 1st July 1881 come under the compulsory retirement clauses of the Royal Warrant for the time being in force on attaining the age of 55 years in the rank of lieutenant-colonel, 57 years in the rank of colonel, 62 years in the rank of major-general and 67 years in the rank of lieutenant-general. Up to the age of 55 there is no compulsory retirement on account of age for the Indian Army

405. When an officer's services are lent either to His Majesty's Government in England, to a British colony, or to a foreign state or municipality, the officer shall make a contribution to the Indian Exchequer towards his pension allowances in accordance with the rules in chapters XXXIX to XLI of the C S R and Chapter XII, Fundamental Rules, unless the contribution is, under general or special arrangements, borne by the borrowing authority

NOTE 1—This rule does not apply to officers lent for employment under the War Office The pensionary liability in respect of officers so lent is borne by Army Funds and discharged, not by a pensionary contribution at the time of the employment, but by payment of a share of the pension after retirement.

NOTE 2—The required contribution when borne by the officer himself must be remitted by him direct to the Accountant General, Central Revenues. His fund subscriptions should be remitted direct to the C. M. A. of the district to which he belongs

Service reckoning for Pension.

406. An officer admitted to the I A from the British Army by transfer or exchange reckons all service in and out of India for the service element and all service in India, and service out of India before joining the I A to an extent not exceeding five years, for the Indian element

NOTE 1—Service for pension computes all full pay commissioned service, and also, in the case of an officer commissioned from a warrant grade or from the ranks any period of service as a warrant officer and half of any period of service in the ranks, reckoned from the date of attestation.

NOTE 2.—A British Service Officer, who, while on the Indian Establishment, left India for service with one of the Indian Expeditionary Forces during the Great War shall, on transfer or exchange into the Indian Army, be allowed to count as Service for the Indian Element the whole of the service rendered with any Expeditionary Force ; such service will not be included in the " Out of India " period of 5 years.

407. Officers appointed to the I. A. from the U. L. (except university candidates) reckon towards pension all full pay service from the date of first commission in the army ; those who rendered rank service prior to joining the Royal Military College, Sandhurst, or either of the late Training Colleges in India, may reckon towards pension one-half of any such service. University candidates appointed after 31st December 1912 who graduated with first or second class honours reckon service for pension from a date specified in the London Gazette notifying their appointment. This date is not more than six months earlier than the date from which they began to draw pay. All other University candidates reckon service for pension from the date on which they began to draw pay. The ordinary antedate of commissions for approximately 18 months granted to University candidates does not reckon as service for pension.

408. Officers selected from the Special Reserve Territorial Force and New Armies for permanent commissions in the Indian Army will count for pension all service as a commissioned or warrant officer and one-half of service in a lower rank rendered since the 5th August 1914 ; but only service in the regular forces before that date will count for pension as above.

No individual, unless disabled on active service, is entitled to the ordinary, special or invalid pension of his rank, or grade, until he has served three years in such rank ; the rate of pension for the next lower rank is admissible provided his aggregate service in the two ranks or grades amounts to three years. The Government of India may, however, condone a deficiency of service in a particular rank, not exceeding three months, except on voluntary retirement.

NOTE.—Service with temporary non-commissioned rank during the Great War will count towards the pension of that rank as though it were substantive rank, if the soldier is subsequently promoted to the substantive rank ; or it may count as service in any lower substantive rank to which the soldier may be promoted. This also applies to all classes holding combatant status, provided they fulfil the necessary conditions.

579. Wound, injury, and family pensions are granted according to the rank held on the date of the casualty, irrespective of subsequent promotion (but see para. 632)

580 The C M A will decide the pension of any follower who has served in two or more commands where the rates of pension of his class or grade differ. The following procedure should, however, be observed in dealing with such cases —

- (i) when a follower has completed the requisite qualifying period of service in one of the commands in which he has served, he will be eligible for the rate of pension admissible in that command;
- (ii) when a follower has served by far the greater part of his service in one particular command, he will be eligible for the rate of pension admissible in that command and
- (iii) when the service of a follower is fairly evenly distributed between the commands, a proportionate pension will be allowed, subjected to the condition that such proportionate pension need not be granted in those cases (except tandals of art units) in which the difference in the rates of pensions for the different commands is very small, in such cases the higher rate of pension may be granted

581 Any person invalided in consequence of any disorder (including insanity) resulting from indulgence in drugs or drink is ineligible for the invalid pension, but in special cases the whole or part of the gratuity otherwise admissible may be sanctioned by the G O C the district.

NOTE—In the case of a man who refuses medical treatment or to undergo an operation for a wound or disease (whether the disability is attributable to field service or not) which in medical opinion would probably render him fit for further service the question whether or not a pension is admissible will be determined by the General Officer Commanding in Chief

583 A pensioner imprisoned for an offence for which he is removed from the pension list, forfeits pension during confinement even if re-admitted to the pension establishment on the expiration of his sentence. In any other case pension is paid on release, less subsistence allowance—but in full for any period of imprisonment for debt or pending trial on a criminal charge of which subsequently acquitted

584 The following rules govern the claims of military pensioners to draw their pensions in addition to pay on re-employment —

- (i) when re-employed in a civil capacity the question whether pension can be drawn in addition to the pay of the new appointment is determined by Art 525 *et seq* of the G S Regs
- (ii) when re-employed in a military capacity—

- (a) if re-enrolled or attested, or re-employed in appointments the incumbents of which are required to be enrolled or attested under the I A Act of 1911, pension will be held in abeyance for the time being

1

587. The Government of India can grant pensions up to a limit of Rs. 25 per month or gratuities not exceeding the equivalent value of that amount in any case, even where no pension or gratuity is admissible under rule, provided that the general spirit of the regulations is observed.

588. The Government of India and the General Officer Commanding-in-Chief may condone a deficiency of service not exceeding six and three months respectively in cases of I. Os., N. C. Os. or soldiers, except on voluntary retirement, or on invaliding before the completion of 15 years' service. A risaldar or subadar-major retiring on completion of seven years in that appointment will be treated as if he had completed 28 years' service.

589. Upon such conditions as it may think fit, in each case, to impose, the Government of India may condone all interruptions in service whatever their duration except where the proposed pension exceeds fifty rupees a month, in which case interruptions not exceeding 12 months in all may be condoned. A General Officer Commanding-in-Chief may similarly in the case of a pension sanctionable by him, condone all interruptions in service, whatever their duration, except when the proposed pension exceeds Rs. 25 a month, in which case interruptions not exceeding 12 months in all may be condoned.

APPENDIX II.

INDIAN MILITARY SERVICE FAMILY PENSION REGULATIONS

tions of service who elect to subscribe

Such pensions and compassionate allowances as are, by Royal Warrant, granted to the widows and families of officers of the British Service are already granted from Indian revenues to the widows and families of military officers in the service of the Government of India who are excluded from the advantages of the late Military and Medical Funds ; and it is to be clearly understood that the Government of India does not intend by these present supplementary regulations to sanction any further expenditure for this object from the Indian revenues. On the other hand, the Government of India does not, of course, wish that the Indian revenues should in any way profit by these regulations.

The Secretary of State for India in Council has reserved to himself the absolute right to regulate from time to time, in accordance with these principles, the contributions to be required from officers, under these regulations, and to make any alterations in the regulations themselves that may appear to him equitable : provided always, that the scale of pensions fixed thereby shall not be reduced in the case of actual incumbents. The Secretary of State in Council will endeavour to adjust the contributions to be levied from officers exactly, so that they shall neither be too large nor too small to supply the pensions provided for by these regulations. But if it should appear on experience that they have been fixed too low, the Government will not require any supplementary retrospective payments ; and if they are found to have been fixed too high, no claim to refund will be admitted.

No insurance fund is established by these regulations. The contributions will be credited and the pensions charged directly to the Indian revenues as military receipts and charges. But in order to adjust the rates of contributions from time to time to what is necessary to supply the pensions provided for by these regulations and no more, a separate *pro forma* account will be kept of all contributions levied and all payments made under these regulations, and of the interest which would have been allowed upon such contributions if a mutual insurance fund had actually been established. All rupee payments and receipts will be converted into sterling, or inclusion in this account, at the current market rates of exchange.

In accordance with the principle announced in this notification, that the Government does not intend that the pensions provided by these regulations shall be any charge on Indian revenues, the rate of interest to be allowed in the *pro forma* account, and the rates of conversion into rupees, for purposes of recovery or payment in India, of the sterling rates of contribution or benefit will, except where otherwise indicated in the regulations, be the rates which may be fixed from time to time under the orders of the Secretary of State in Council upon a consideration of the market rates of the day.

All needful statistics, of ages, births, deaths, and marriages will be carefully recorded from the information supplied by the subscribers, and these statistics, with the *pro forma* accounts, will be submitted at such periods as may be determined by the Secretary of State in Council to such actuary or actuaries as he may select, with instructions to investigate and ascertain whether the rates of contribution are such as will, at the rate of interest then to be determined, supply the pensions payable under these regulations, and no more.

Upon the report of the actuary or actuaries the Secretary of State in Council will order any necessary alterations in the rates of contribution.

The report of the actuary or actuaries, with the orders of the Secretary of State in Council thereupon, shall be published in the *Gazette of India*, and any alteration ordered in the rates of contribution will take effect from the beginning of the month following the date of such publication. No retrospective adjustments will be made.

APPENDIX III.

INDIAN MILITARY WIDOWS' AND ORPHANS' FUND REGULATIONS.

I. The following regulations are designed to secure suitable provision for the widows and orphans of officers of the Indian Army, officers of the Indian Medical Service, officers and engineers of the Royal Indian Marine, and Chaplains on the Indian Establishment, not being subscribers under the Indian Military Service Family Pension Regulations; also of continuous service Royal Artillery and Royal Engineer officers, as well as Royal Engineer officers under the 1904 conditions of service, who not being subscribers under the Indian Military Service Family Pension Regulations, elect to subscribe to this Fund.

II. Such pensions and compassionate allowances as are, by Royal Warrant, granted to the widows and families of military officers of the British service, are granted from Indian revenues to the widows and families of military officers in the service of the Government of India. It is not intended by the present regulations to impose on the revenues of India any further expenditure for this object except such additional expenditure as may occur under the operation of paragraphs V, VII and VIII. On the other hand it is not intended that the revenues of India shall in any way profit by these regulations.

III. The Secretary of State for India in Council reserves to himself the absolute right to modify from time to time the contributions to be required from officers, in order to give effect to these principles, and to make any alterations in the regulations that may appear to him equitable: provided always that the scale of pensions shall not be reduced in the case of actual incumbents. The Secretary of State in Council will endeavour to adjust the contributions to be levied from officers exactly, so that they shall neither be too large nor too small to supply the pensions provided by the regulations. But if it should appear on experience that they have been fixed too low, the Government will not require any supplementary retrospective payments; and if they are found to have been fixed too high, no claim to refund will be admitted.

of $5\frac{1}{2}$ per cent per annum on the mean of the balances as they stood at the beginning and end of such half year

VI Conversion of sterling into rupees and of rupees into sterling in transactions under these regulations and in the accounts will be made at the current rate of exchange

VII The cost of management will be borne by the State

VIII All needful statistics of ages, births, marriages, and deaths will be carefully registered, and these statistics, with the accounts, will be submitted at such periods as may be decided on by the Secretary of State in Council to such actuary or actuaries as he may select such as will, at the regulations, the State

IX Upon the report of the actuary or actuaries the Secretary of State in Council will order any necessary alterations in the rates of contribution but it is not the intention that an alteration in the rates of contribution shall be made in respect of a slight variation in mortality or marriage experience disclosed at the particular valuation or in respect of a variation that appears likely to be temporary

X The report of the actuary or actuaries, with the orders of the Secretary of State in Council thereupon, will be published in the *Gazette of India*, and any alteration ordered in the rates of contribution will take effect from the beginning of the month following the date of such publication. No retrospective adjustments will be made

2. Every officer who enters the service on and after the 1st January 1915, must, as a condition of his appointment, provide pensions for his family under these regulations.

3. Royal Artillery and Royal Engineer officers who have been selected, or who have elected, for continuous service in India have the option of subscribing under these regulations, in accordance with the conditions laid down in the Sub-Appendix (see pages 290 and 291).

Royal Engineer officers under the 1904 conditions of service must elect, within three months of their arrival in India, whether they desire to subscribe for benefits under these regulations, and they must submit a satisfactory medical certificate. On payment of the prescribed donations (see also Sub-Appendix, pages 290 and 291), according to their class at the time of their application, they will be allowed to subscribe for so long as they remain on the Indian Establishment. On reversion to the Imperial Establishment, such officers cannot continue as subscribers; but they will be entitled to receive back such portion of their contributions as may be in excess of the risk borne during the term of their membership, in accordance with the terms of Article 30. In the event of an officer, whether married or unmarried, retiring on a pension awarded under Indian rules, while subscribing, he must continue to subscribe in accordance with the terms of Article 32.

4. For the purposes of these regulations subscribers are classed as follows :—

Class I.—Major-Generals of the Indian Medical Service and those who avail themselves of subscribing in this class under the terms of Article 5.

Class II.—Officers of the Indian Army, Royal Artillery, and Royal Engineers, of 26 years' service*; officers of the Medical Service of 20 years' service; executive and Engineer Officers of the Royal Indian Marine of 20 years' service; and Archdeacons.

No officer of the Indian Medical Service will be compelled to subscribe in Class II or III, who has not attained the rank of Lieutenant-Colonel or Major, as the case may be, and no officer of the Royal Indian Marine who is not in a first-class port appointment, or an Engineer Captain or an engineer Commander of 20 years' service will be compelled to subscribe in Class II. In all such cases the subscriber must elect, within three months from the date of completing the qualifying service, whether he will (i) subscribe in the class in which his length of service places him, or (ii) continue to subscribe in the lower class. If he elects (i) he will be charged the increased subscription due to subscribe in the lower class. If he elects (ii) he will, in the event of subsequent promotion, be charged the increased subscription from the date of such promotion.

An officer cannot enter a higher class unless he has previously subscribed in the class immediately below it, nor can an officer who has elected to subscribe in a higher class be allowed subsequently to revert to a lower one.

5. The contributions for pensions under these regulations, and the pensions of widows, will be regulated by the class of the contributing officer. An officer cannot secure a higher pension for his widow by contributing as if he belonged to a higher class.

Arrears

13 If any subscriber fails to pay any of the instalments due, the balance of any donation outstanding at the date of a subscriber's death will be recovered in accordance with Article 13

Reports of marriages births and deaths

14 An Officer who is married at the date of his admission into the service must report the fact of his marriage at the time, and the names and dates of birth of his children, if any, have been born to him. A member in the service must report his marriage, or the birth of a child born in wedlock, or the death of a wife or child within one month of the occurrence. These reports must be made in accordance with the instructions given in the Sub Appendix.

15 The report of a marriage shall be payable under Tables V and VI from the date of marriage. After that date the balance of any donation outstanding at the date of a subscriber's death will be recovered in accordance with Article 13

17 In the event of the report of a marriage or the birth of a child not being made by a subscriber during his lifetime, in accordance with the rules, the widow or child will not be entitled to any benefits.

NOTE — The provisions of Articles 16 and 17 are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under these regulations. Intentional neglect to report is a breach of discipline.

Posthumous child.

18. Provided the birth of a posthumous child is reported within one month and the contribution required by the regulations has been or was being paid for the father's youngest child, if any, living at the time of his death, a pension will be granted to the child without any payment if the child is born of a marriage in respect of which the prescribed payments have been made. The report must be made in Form D and a certificate of the child's birth furnished.

Duration of pension.

19. If a widow re-marry, her pension will cease during coverture; but if she again becomes a widow she will be entitled to revert to her pension as widow of her first husband, or, if her last husband have been a contributor, to receive a pension at her option as the widow of her last husband. A widow can only receive one pension.

20. The pension of a male orphan is payable until he attains the age of 21 years.

21. Subscribers can make special provision for pension to sons under the age of 21 years who may become permanently incapacitated from earning a livelihood.

The pensions so provided for will commence at the age of 21, if the son be then fatherless, or after that age on his becoming fatherless, and as regards the amount of such pensions and the subscriptions to be paid to secure them, each case will be considered and determined on its merits.

22. The mother or guardian of a male orphan who has attained the age of 16 may, with the sanction of the Secretary of State for India in Council, at any time thereafter (on application in Forms F to H annexed to these regulations), have the residue of his pension commuted into a single payment, for the due application of which the mother or guardian will be held responsible. When the pension is being drawn in India from a Government Treasury there, it will rest with the Government of India to give the required sanction. The following table gives the commuted value of such pensions:—

The amounts in this Table are subject to a temporary increase of 25 per cent. until 31st December 1924.

23. The pension of a female orphan continues until her marriage and then ceases absolutely. It does not revive on widowhood.

Good conduct.

24. The pensions provided under these regulations shall, in all cases, be held during good behaviour only, and will be withheld if any pensioner is found to be leading an immoral life, or on proof of any gross misconduct. In any such case the order of the Secretary of State for India in Council or, when the pension is being drawn in India from a Government Treasury there, the order of the Government of India shall be final and conclusive.

Alienation of pension.

25. A pension paid under the regulations may not be transferred or assigned or in any way alienated from the pensioner to whom or for whose benefit it is payable.

Passage money.

26. An officer may, by a special contribution, provide passage money from India for his widow and orphans. The amount so secured will be paid to the widow, or to any children of the deceased officer, for the provision of their passage money and contingent expenses. If, however, the surviving members of the deceased officer's family are not in India, or do not wish to leave India for any other country, the money will be credited to the deceased officer's estate, and payment can be made in India in rupees, or in England at the official rate of exchange according to the election of the person or persons entitled to receive the money. The amount secured must not exceed Rs. 3,000, and a health certificate must in every case be furnished by the subscriber.

In the latter case they will, on retirement, or reversion to full pay, be required to pay arrears, with interest; and, in the event of the death of a subscriber while on the temporary non-effective list or before the arrears have been paid, the amount due will be recovered from the pension granted to the widow. Unmarried officers must continue to subscribe at the half-rate of subscription.*

33. The whole of the subscription which has been paid by an officer who has remained unmarried up to the date of his death will be refunded, without interest, to his estate.

In the case of an officer who at his death was subscribing as a widower without surviving children eligible for pension, the subscriptions paid by him for the period during which he so subscribed, excluding any such period prior to a re-marriage, will be refunded, without interest, to his estate.

Dismissed officers.

APPENDIX IV.

REGULATIONS FOR COMMUTATION OF PENSIONS.

(a) *Officers of the Indian Service.*

1. These regulations are applicable only to officers retired on or after the 1st July 1881.
2. An officer may be allowed to commute a portion, not exceeding one-third, of his retiring pension, which commutation may take place on retirement, or at any other time subsequent thereto.
3. An officer in Europe desirous of commuting must make application in writing, to the Under Secretary of State for India stating his desire so to commute and furnishing information as to his age, rank, and the amount of his pension.
4. If the Secretary of State for India in Council shall approve the commutation, the officer will be so informed, and his application will be referred to the Medical Board at the India Office.
5. The Board will require the officer to give such information as to his health and habits, as is usual in the case of persons proposing to assure their lives in assurance companies and he will be required to submit himself for personal examination by the Board at the India Office.
6. An officer in India desirous of commuting must address the authorities in that country. He will be required to follow a similar procedure. He may appear before a Medical Board at any station in India that may be convenient, such board being assembled under the orders of the Local Government and presided over (where practicable) by the Chief Civil Medical Administrative Officer of the Province.

An officer residing in a Colony and desirous of commuting will be required to follow a procedure similar to that in the case of an officer residing in Europe except that he will apply to the Under Secretary of State for India through the official from whom he draws his pension.

If the application is approved the officer will be informed accordingly and a special civil medical board will be assembled under the orders of the Local Colonial Government.

The Medical Board will report in the following form :—

“ We have examined carefully and are of opinion that he is (or is not) in good bodily health and has (or has not) the prospect of an average duration of life. We therefore (or do not) recommend compliance with his application to be allowed to capitalise a portion of his pension.”

In the case of impaired lives in which compliance with the officer's application is recommended, but with an addition of years of age the following should be added :—“ but as he is suffering his age for purposes of commutation should be taken to be years.”

7. The basis of commutation, subject to an addition of years of age in the case of impaired lives, shall be the following table, the age of the officer being reckoned at the age he will attain on the birthday next succeeding the date upon which the capitalised sum will become payable :—

week after receiving notice

9 If the applicant shall not withdraw his application within that period, the decision will be considered final and the commutation of pension will take place absolutely

10 The capitalised sum will be payable in India if the commutation is effected there in

11 In any case in which a pensioner shall accept public employment involving the withholding of pension, a deduction will be made from the salary payable to him equal to the amount which would have been abated from the pension if it had not been commuted and in the event of his becoming entitled to a pension in respect of such employment, the amount of such pension granted to him shall not exceed the amount which he might have received had his pension not been so commuted

12 Permanent wound, injury and disability pensions may also be commuted by retired officers of the I A, I M S, and Army in India Reserve on the same terms as ordinary retiring pensions subject to any addition to age which, the Examining Medical Board may recommend, should be made in view of the wound, injury or disability

In all cases of commutation under this rule the amount of pension left uncommuted must not be less than £150 a year except in cases where the total pension or pensions of an officer is less than £180 a year, in which case pension not exceeding £30 may be commuted, provided that not less than £120 a year remains uncommuted.

NOTE—Where an officer who is still serving applies to commute a wound pension, he shall not be allowed to commute more than would be admissible under the foregoing rule, the amount of pension (or invalid pension) being calculated at the rate admissible to his rank and length of service at the time of making application to commute

(b) Officers of the I U L and I M D

13 The rules in paras 2 to 11 above are also applicable to officers of the I U L and I M D, irrespective of whether they held substantive or honorary rank at the time of their retirement from service

NOTE—In the case of officers of the I U L and I M D, the commutation of pension will be effected in India if the commutation is effected there in

15 If a pensioner writing to the Under Sec

16 If the pensioner is married, the written consent of his wife to the commutation must be produced, and her signature must be witnessed by a magistrate, clergyman, or other responsible person.

17. The application must be accompanied by letters from persons of good standing and preferably of official position, stating why, in their opinion, commutation would be to the distinct and permanent advantage of the pensioner and no application to commute will be approved until the Secretary of State for India in Council or the Government of India is satisfied of this.

18. If the application is approved, the pensioner will be informed accordingly and will, if residing in Europe, be required to attend at the India Office for examination by the Medical Board as to the condition of his health; if residing in India, he may appear before a Medical Board at any station that may be convenient, such board being assembled under the orders of the Local Government and presided over by the Chief Civil Administrative Medical Officer of the Province (when practicable). If residing elsewhere, the pensioner should apply to the official from whom he draws his pension for the assembly of a medical board. In India the medical board will report in the following form:—

“ We have examined carefully _____ and are of opinion that he is (or is not) in good bodily health and has (or has not) the prospect of an average duration of life. We therefore (or do not) recommend compliance with his application to be allowed to capitalise a portion of his pension.”

No travelling or other expenses in connection with this examination are chargeable against the public.

19. No commutation shall be sanctioned unless the medical board consider that the pensioner is in a state of health which affords an average expectation of life.

20. The basis of commutation shall be the following table, the age of the pensioner being reckoned at the age he will attain on the birthday next succeeding the date on which the capitalised sum will become payable:—

21. The commutation having been sanctioned the applicant will be informed and will have the option of withdrawing his application within one week after receiving notice.

22. If the applicant does not withdraw his application within that period, the decision will be considered final and the commutation of pension will take place. In the event, however, of the money not being applied for the purpose mentioned in the application and being refunded to the Secretary of State in Council or other competent authority, in accordance with the undertaking to that effect signed by the applicant, the commutation will be cancelled.

23. The capitalised sum will be payable in India if the commutation is effected there; otherwise it will be payable in England. Payment will be made at the expiration of one week from the date of the commutation being sanctioned. In each case the pension will be issued in full up to the date of payment unless any delay has been caused by the pensioner's own fault or that of his agents.

24 In any case in which a pensioner shall accept public employment, involving the withhold amount the even such pension granted to him shall not exceed the amount which he might have received had his pension not been commuted
